YubaNet.com

Guidelines for Submitting PR

- Byline will be the submitting org/business, not an individual writer unless requested.
- Format: Text, Word or pdf file via email.
- Photo/Artwork: Required for all submissions, at least one photo or graphic. The minimum size is 1,200 pixels in width. Please provide the highest resolution possible (300 dpi)
- Video: Embeds via Vimeo or YouTube are acceptable.
- Content: Clearly indicate if this is original material or promo submitted by an artist/producer/distributor. Attribution is required for third-party material.
- YubaNet.com is an online news platform and does not impose a word limit. Nevertheless, brevity is the soul of wit so we recommend the following guideline: try to keep it under 1,700 words. We will not spellcheck your submission, please verify your document before submitting. One-paragraph "announcements" might be considered for the Happening Now log, not as standalone posts.
- Frequency: Weekly or monthly submissions are acceptable. We do not guarantee publication, but if your submission is geared towards our Sierra Nevada readership, your chances of appearing on the site are good.
- Send all submissions to news@yubanet.com exclusively.
